

## Academic background assessment

This form (in combination with your transcript and courses in progress) will be used by the Office of International Student Affairs to assess your level of relevant academic background in a specific field of study. Based on this assessment, one of the seven possible University of Amsterdam (UvA) academic departments will receive your application and they will review whether you meet their academic entry requirements.

Your name

JUI-HSIN LEE

Your home university

National ChengChi University

### General requirements

4

How many years of academic education on undergraduate/ bachelor level will you complete before starting your exchange at the University of Amsterdam?

0

How many years of academic education on graduate/master level will you complete before starting your exchange at the University of Amsterdam?

16

How many courses comprise a full year workload at your home university?

### Field of Study

Even though names of academic departments are the same when you compare your university to the UvA, it might be that there are substantial differences in terms of the offered study programmes and courses by an academic department. For example: *Humanities* could consist of entirely different study programmes at your university then what the UvA considers to be *Faculty of Humanities*. We will therefore ask you to assess your own academic background by categorizing the courses that are listed on your transcript in the following specific fields of study:

10

**Business & Economics** How many courses on your transcript fall within the following subject areas: accountancy, control, finance, mathematical finance, business administration, economics, business economics, econometrics, actuarial sciences, management, marketing, mathematics, calculus?

4

**Humanities** How many courses on your transcript fall within the following subject areas: archaeology, ancient studies, art, religion, culture, Dutch, English, American studies, history, language, literature, media, philosophy?

1

**Law** How many courses on your transcript fall within the following subject areas: public international law, international trade law, investment law, European Union law, European competition law, law and regulation, European private law?
